

KT 6647

Technical drawing of a mechanical part with dimensions and a cross-section. The drawing shows a rectangular block with a central circular feature. The dimensions are as follows:

- Overall width: 845
- Distance from top edge to the top of the central feature: 208
- Distance from top edge to the center of the central feature: 637
- Distance from top edge to the bottom of the central feature: 615
- Distance from top edge to the bottom of the block: 565
- Distance from the left edge of the central feature to the center of the central feature: 74
- Distance from the right edge of the central feature to the center of the central feature: 74
- Distance from the left edge of the block to the left edge of the central feature: 38
- Distance from the right edge of the block to the right edge of the central feature: 38
- Distance from the left edge of the central feature to the right edge of the central feature: B
- Distance from the center of the central feature to the right edge of the central feature: 80
- Distance from the left edge of the central feature to the right edge of the central feature: A

The central feature is a circular hole with a cross-section view showing a central hole and a surrounding ring. The cross-section view is labeled with 'XX' and '80'.

A line drawing showing the front panel being attached to the cabinet. The panel is being aligned with the top edge of the cabinet's front face. A screw is shown being inserted into the top of the panel to secure it to the cabinet frame.
